

## **HYCROFT MINING ANNOUNCES NEW WEBSITE AND FIRST FULLY INTERACTIVE VIRTUAL SITE TOUR WITH VRIFY**

**WINNEMUCCA, NV, September 20, 2022** – Hycroft Mining Holding Corporation (Nasdaq: HYMC). (“Hycroft” or the “Company”) announces it has launched a new website and has officially joined the growing community of mining companies using VRIFY Technology Inc. (“VRIFY”) to rethink the way we communicate with investors. Hycroft’s first fully interactive presentation contains a 3D model and 360-degree virtual site visit for the Hycroft Mine that allows viewers to visualize the real-world scale of the mine site in 3D and take a tour of the considerable infrastructure of the site.

Direct Q&A feature: Investors are invited to dive in and immerse themselves in the Hycroft Mine and submitting questions directly to Hycroft management in real-time while browsing the interactive content.

Access the interactive presentation through the Company’s corporate website via the homepage and at the following link: [https://vrify.co/Hycroft\\_3Dpresentation](https://vrify.co/Hycroft_3Dpresentation)

Diane Garrett, President and CEO commented: “We are committed to being as transparent as possible with every investor. The 3D and 360-degree visuals that we’ve built with VRIFY are designed to contextualize even the most complicated data sets and results for everyone from the technical reader to someone who is investing in a mining company for the first time. “As we ramp up Hycroft’s largest exploration program in nearly a decade, investors can now follow along and visualize the drill result intercepts in a 3D space.”

Investors can also now view Hycroft’s company profile on the VRIFY platform, where new interactive content will continue to be added as the Hycroft Mine story progresses:
